

Gunmetal

We are one of the trusted sources of **Gunmetal** in India. We offer industrial grade Gunmetal that is procured from leading Gunmetal manufacturers and suppliers from across the country. Also known as red brass, the Gunmetal offered by us available in multiple grades and variants to meet varied needs of our clients.

Features :

- Best composition
- Various grades and variants
- Available As per IS/BS/DIN Standard
- Completely free from any types of Porosity/Blow Holes

Widely used for :

- Manufacturing Guns
- Machines
- Engineering products

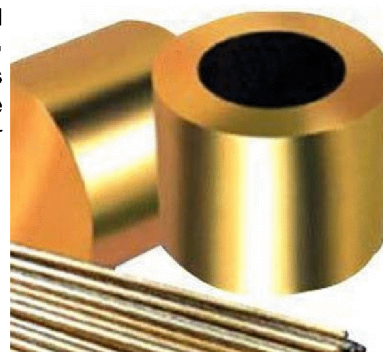

Chemical Specifications :

Elements	Cu	Sn	Pb	Zn
%[85/5/5/5]	85	5	5	5
%[Rg 7]	87	7	3	3

Phosphor Bronze Products

We are listed among the apex **Phosphor Bronze Products** Suppliers and Traders that are made from quality base materials. Popular for resistivity to rust and anti-abrasive nature, the Phosphor Bronze Products provided by us are widely used in chemicals, electrical and engineering industries. The premium quality of our products along with fine finish makes them ideal for numerous industrial applications.

Specialty :

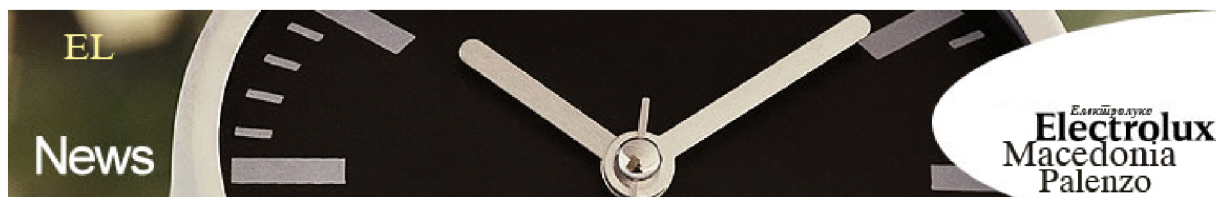

- Corrosion resistant
- Procured from reliable suppliers
- Durable and strong structure
- Fine finish

Widely used in :

- | | |
|--|---|
| <ul style="list-style-type: none"> • Connectors • Clips for electrical switches • Switch components • Precious Valves • Pinion • Flat springs • Relay for Electronics | <ul style="list-style-type: none"> • Stampings • Auto Electricals • Clutch discs • Fuse Clips • Fasteners • Lock Washers • Perforated Sheets |

Specifications :

Thickness	0.05MM TO 2MM
Width	4MM TO 406MM
Hardness	Soft,Quarter Hard,Half Hard,3/4 Hard, Hard,Extra Hard and Spring Hard

Titanium Products

The **Titanium Products** offered by us are very popular among our clients because of its pure quality and durable structure. Sourced from leading manufacturing and processing units, the Titanium Products offered by us, meet strict quality and performance standards. Our clients are also pleased by the easy availability of our Titanium Products at competitive prices.

Why our Titanium Products?

- Anti-corrosive & anti-abrasive nature
- Durable and strong structure
- Sourced from reliable manufacturers
- Complies with strict quality and performance standards

Grades :

- Titanium Grade I
- Titanium Grade II

Widely used in :

- Chemical industry
- Electrical appliances industry
- Engineering applications

Specifications :

International Grade	ASME SB-265
Round Bar/Wire	ASME SB-348 ASTM F-67 AMS 4921 ,AMS 4928,AMS 4957, AMS 4958 , AMS 4965, AMS 4967 ,AMS 4971, AMS 4978, AMS 4979
Pipe	ASME SB-337, ASME SB-338
Tube	ASME SB-337, ASME SB-338 AMS 4942 AMS 5582, AMS 5583
Fittings	ASME SB-363
Forgings	SME SB-381 MIL-T-9046, MIL-T-9047
