

## Stairs

Our company undertakes the construction of staircases by stainless steel for indoor and outdoor use concerning the demands of the customers. The customer has the opportunity to choose between several plans of staircases our company has already produced, suggests and study with our technical assistant his idea, even more realizes his own plan of staircases with our consulting engineer's aim.

The stairs are exclusively produced by us without using finished accessories. The several options of the stairs, steps and balustrades give unique image to each type of staircase. We should mention that our company holds the exclusive patent for the type of coverage of cyclic metallic stair with patent number
